

# LIGHTING Tech

## Checklist

### *During the Week*

- Go over the service notes for upcoming services
- Listen to planning center recordings to create a lighting plan
- Create appropriate plans for song sets or songs
- place service lighting MACROs in the proper places in ProPresenter

### *During Services*

- Look to see if there are improvements that can be applied to next week

### *Between Services*

- Make any changes that need to be made for the next service (if any)
